MERINO WOOL SPUN IN ITALY

# Sutton Cashmere

Cashmere is the very definition of sartorial luxury. The fine soft fiber is one of the rarest and most sought after in the world. For good reason that is. To make ours we teamed up with the acknowledged Italian knitwear producer – Zegna Baruffa. The Sutton Cashmere Crew Neck is fully fashioned, made from fine 2/28 (2-ply) cashmere yarns, knitted in 12 gauge, and designed with reinforced 1x1 tubular ribbed cuffs, hem, and neckline.

MERINO WOOL SPUN IN ITALY

# Wilton

Sitting down to create our merino knits program we evaluated a multitude of suppliers to find what we believe to be one of the softest and most durable merino yarns out there. It's made by Zegna Baruffa and when it was released at the end of the 70's it revolutionized the world of knitwear. To this day it's a hallmark of Italian craftsmanship and a benchmark in the world of high-class knitwear. As shiny as silk, as soft as cashmere, 100% extra fine merino wool by Zegna Baruffa Lane Borgosesia entirely made in Italy. Our line is knitted in 12 gauge, the yarn count is 2/30 (2-ply), and the cuff, hem, and neckline feature reinforced 1×1 tubular ribbing.

# Premium Selection

Making a shirt is much like composing a tasty dish. Without quality ingredients, the end result is rarely any good. That is where we start. For our premium selection of shirts, we work exclusively with natural fibers where cotton and linen (flax plant) form the base, either individually or mixed. To ensure the highest quality, we mainly use American and Egyptian extra-long and long staple cotton, GOTS- certified eco-cotton, and flax(linen) from Normandy, France. Our fabrics are developed together with acknowledged Japanese and European fabric mills, such as Thomas Mason, Albini, Albiate, and Canclini. The shirts themselves are crafted in a specialized shirt factory in Paredes, Portugal, a family-owned company in the second generation with substantial expertise. The buttons are made from natural Trocas shell, and each shirt is carefully treated according to uniquely developed recipes for each individual fabric. The treatment makes the shirts soft and comfortable to wear from day one, while also lending a unique character.

# The White Selvage Denim

We didn't want to make just another shirt. We searched for a long time for a white shirt made from Japanese Selvage Denim. A shirt that, just like your favorite jeans, gets more character and patina the more it's washed and worn. When we couldn't find one, we decided to make it ourselves. The result is The White Selvage Denim, our Smart Casual interpretation of the white shirt. As far as we know, it's the first white shirt on the market made from a Japanese selvage fabric. We make versatile, timeless, and comfortable long-lasting shirts. The White Selvage Denim is no exception. The fabric is developed together with a skilled weaver based in Okayama, Japan, and treated according to a unique recipe to get the right hand-feel. We've designed the collar and cuff for optimal comfort and made the buttons from Trocas shells. The shirt itself is sewn in a family-owned factory in northern Portugal. Every single step equally important to the end result – The White Selvage Denim.

# Oxford Shirts

Shirts made from oxford fabric have become true wardrobe staples for people in search for real comfortability and a casual appearance. It is constructed using a symmetrical basketweave where two weft threads are crossed over two warp threads. The two-tone appearance that often characterizes oxford shirts is created when colored threads in the weft are crossed with white threads in the warp. The combination of a relatively loose two-by-two weave and heavy threads creates a slightly more rough and coarse texture than most fabrics. It also makes it durable and robust over time. It's a truly versatile fabric that goes just as well ironed as it does hang-dried and slightly wrinkled.

PREMIUM SELECTION

# Twill Shirts

A Twill fabric is characterized by its distinctive diagonal weave and texture, creating a pattern of parallel ribs. The nature and prominence of the pattern depend on the thread count and the type and tightness of the twill weave. Usually, twill used for shirts has an extremely tight weave with a high thread count and a little bit of shine to it. Often, the fabric is treated to be iron-friendly and resistant to wrinkles, making it easy to maintain. We use a tight twill weave for our shirts preventing see-through, while also lending a soft and natural drape.

PREMIUM SELECTION

# Linen Shirts

A linen shirt is often referred to as the ultimate summer companion due to its natural breathability and coolness. The fabric itself is made from durable fibers from the flax plant, making it highly absorbent and fast to dry. The threads are loosely woven into a relaxed fabric perfect for hot climates. The flax plant gives the shirts a dry hand to it and makes it wrinkle easier than a cotton shirt. We consider those two characteristics to be what blesses it with such a relaxed look and feel.

# Washed Denims

There really is something special about denim shirts. The textured surface, the deep color, and the patinating character of indigo. With time they tend to become some of the most used shirts in the daily arsenal. Our denims are made from yarn-dyed 2-ply denim twill fabric and garment washed for extra softness.

CAMDEN POLO & CAMDEN STRETCH POLO

# The Iconic Polo

Since its debut on the world stage at the beginning of the 19th hundreds, this icon of a garment has been worn by movie stars and rebels alike. It's a hybrid between a shirt and a t-shirt, making it the perfect compromise. Casual, yet sophisticated. Well-dressed, yet relaxed. We offer two alternatives, both made from Oeko-tex 100 certified combed long-staple cotton yarns. The first, Camden Polo, is made from 100% Cotton Oeko-tex 100 certified yarns and features a 30/2 (2-ply) knit at a substantial yet light 240 g/m2. The ribs are 5-layer and reinforced with elastane for stability and durability. Our second option, The Camden Stretch Polo, features an identical design but for increased comfort and ease of movement, it has a 95%/5% cotton/elastane blend. The fabric is at 220g/m2 with a 30/1 (1-ply) knit from Oeko-tex certified yarns, and the ribs are 4-layer and reinforced with elastane.

COMMUTER POLO

# Mercerized Long Staple Cotton

Sitting down to create our most exclusive piqué polo, the Commuter Polo, we started at the fiber level using durable yet soft fine long-staple cotton. After having spun the fine Oeko-tex 100 certified cotton yarns, they are mercerized. It's a process that strengthens the yarn and gives it a lustrous, shiny appearance, while also increasing the color constancy of the fabric. In order to further enhance the smoothness, the mercerized yarn is gassed very quickly using a hot flame. This is to remove any access fuzz or lint on the thread. Thereafter the yarns are knitted into a 60/2 (2-ply) piqué knit at a light and comfortable 190 g/m2, which is crafted into the final garment. A sophisticated and subtle piqué polo with a smooth hand-feel and tonal buttons.
